

# A complete medicine dispensing solution

Brought to you by our Celesio businesses

Outpatient, Inpatient and Discharge Dispensing all supported with Home Care

Celesio offers a complete medicine dispensing solution for your NHS Hospital Trust. Providing outpatient, inpatient and discharge dispensing solutions to 50 NHS hospitals across the UK we are helping to enhance patient care, free up bed space and reduce financial risk. And we can do exactly the same for you.

LloydsPharmacy

evolution  
homecare  
healthcare direct to you

## Inpatient Dispensing

Freeing up clinical expertise, lowering financial risk and avoidable waste through a managed inpatient dispensing service.

## Mental Health

Moving care back into community through local administration of medicines by trained and competent LloydsPharmacy teams underpinned by focused health assessments and monitoring.

## Home Care & Local Delivery

Keeping patients out of hospital with medication deliveries to homes or the local LloydsPharmacy.

## Clinical Governance

Providing safer care by operating in a robust and transparent quality framework with continuous auditing and monitoring supported by a dedicated hospital service manager.

## Touch Health Points

Providing healthcare advice and testing services when patients come in for prescriptions from our hospital pharmacies.

## Patient Consultation Area

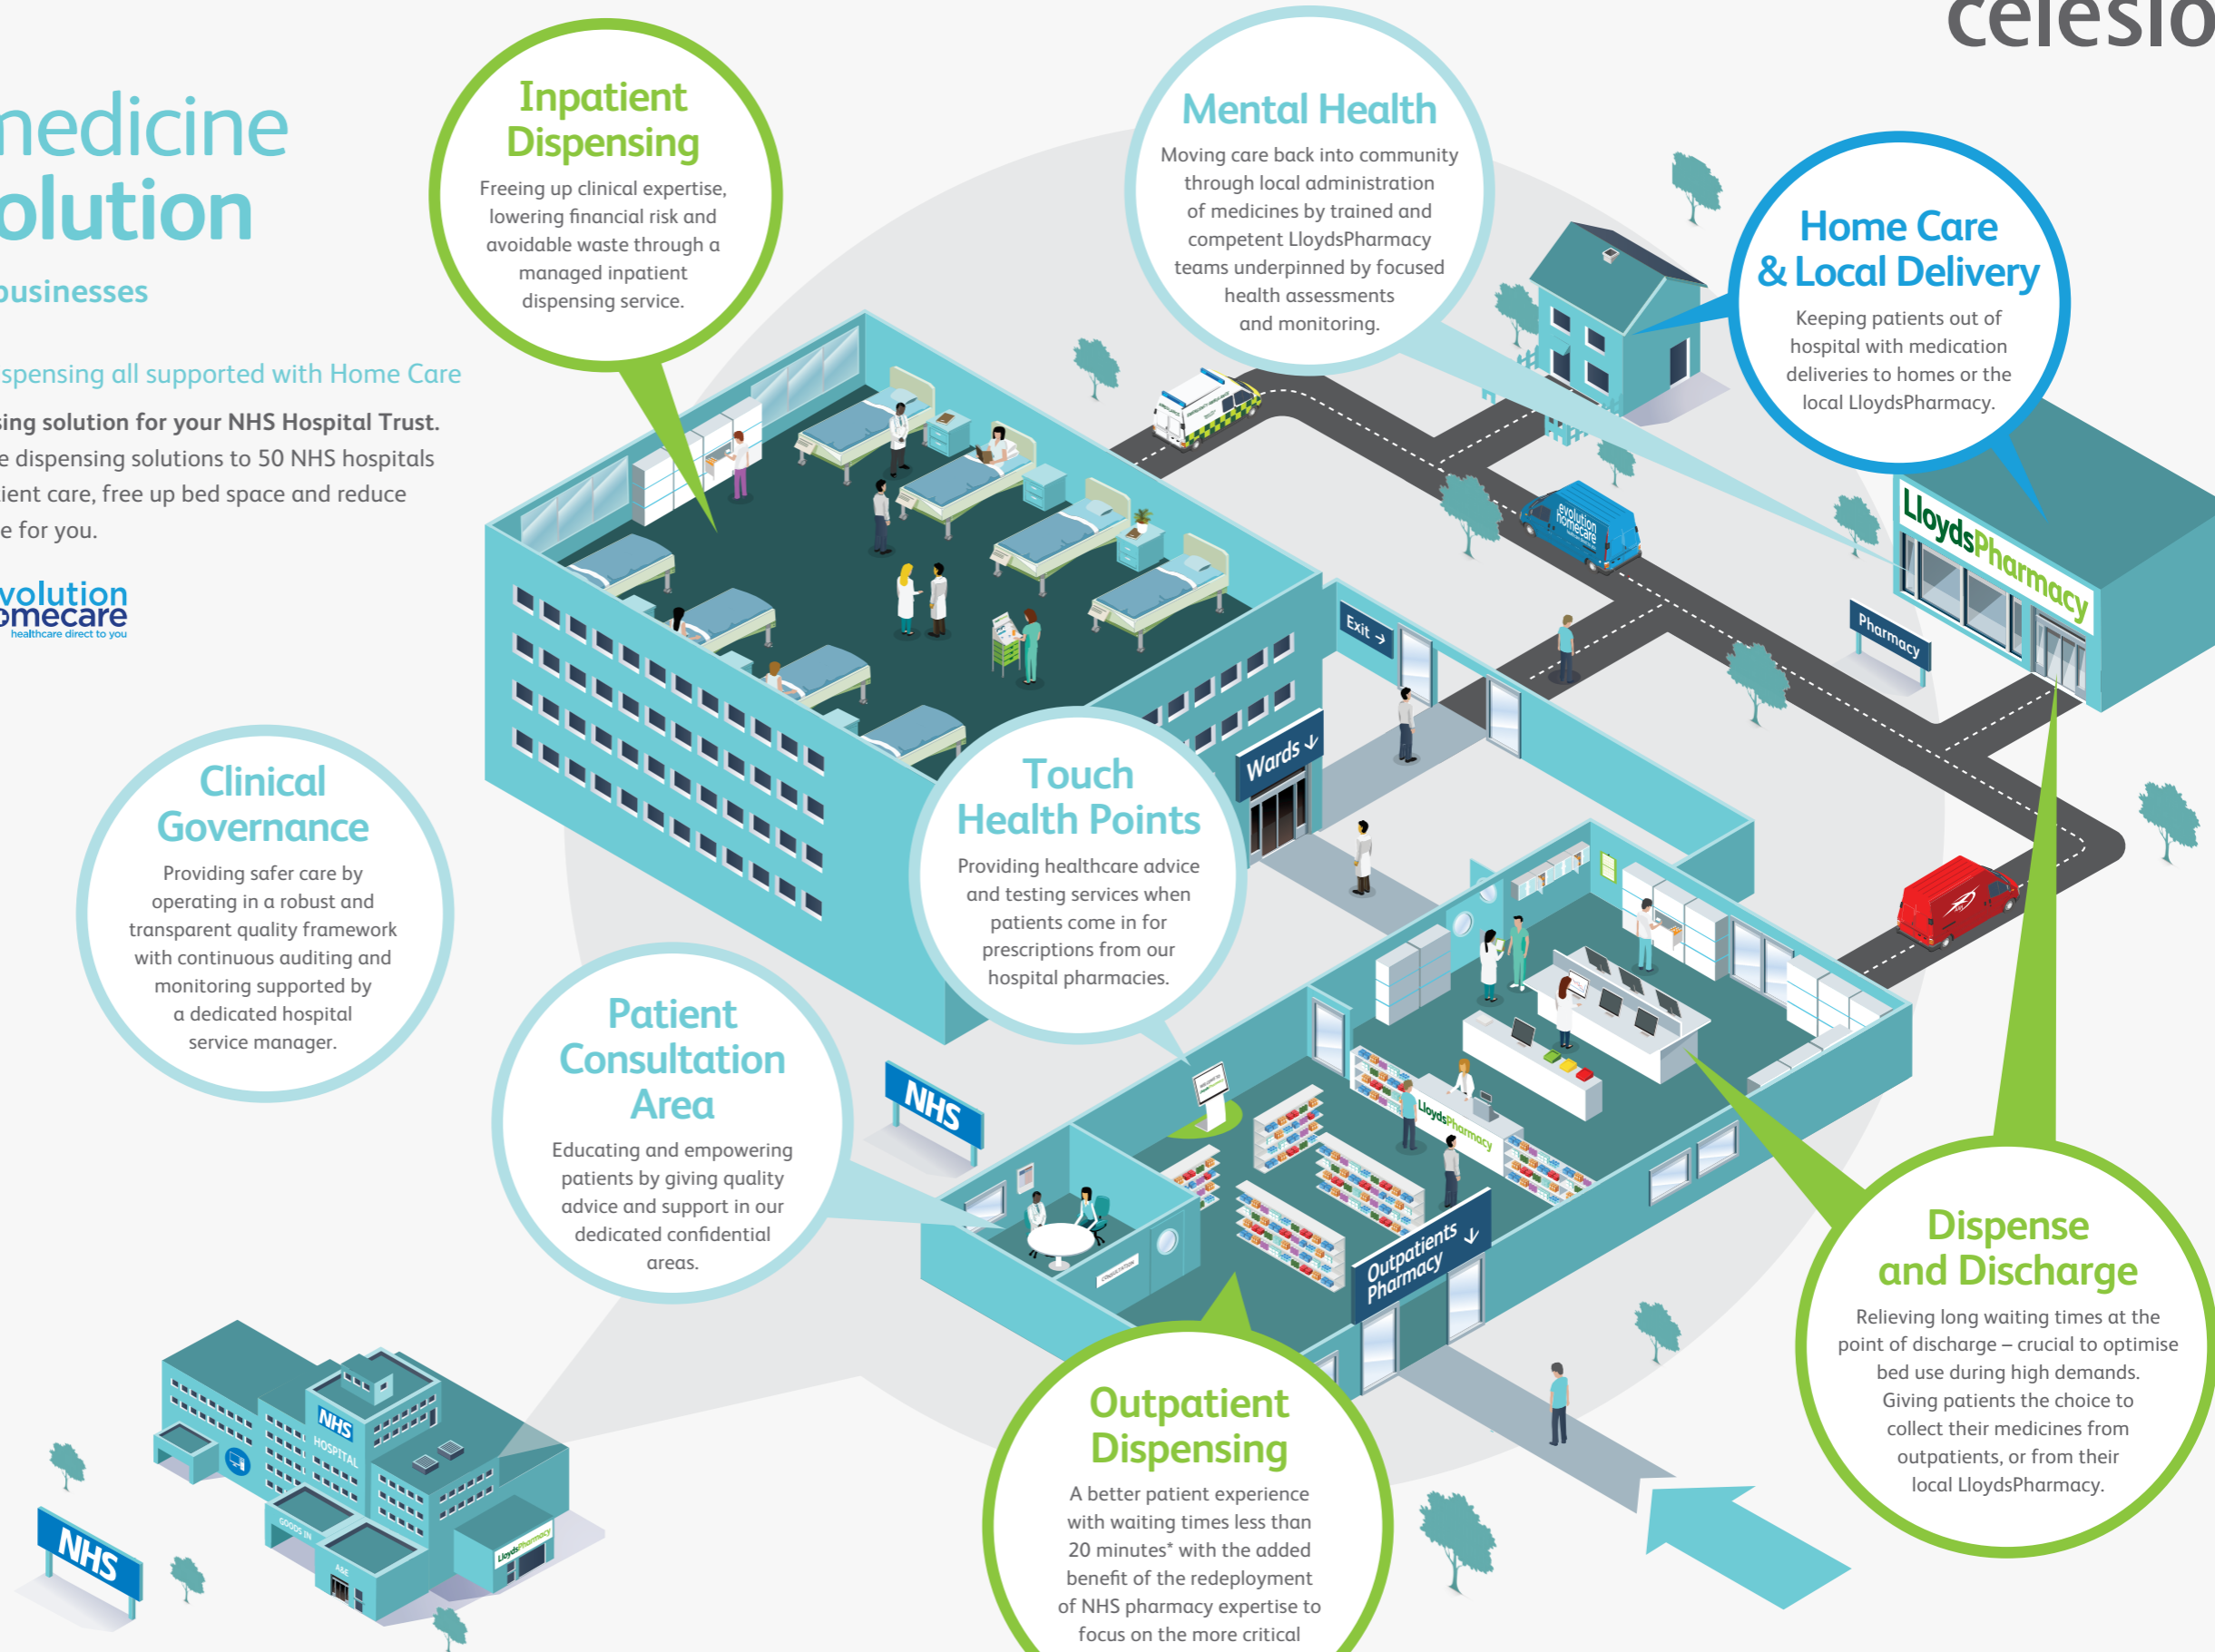

Educating and empowering patients by giving quality advice and support in our dedicated confidential areas.

## Outpatient Dispensing

A better patient experience with waiting times less than 20 minutes\* with the added benefit of the redeployment of NHS pharmacy expertise to focus on the more critical clinical activities.

## Dispense and Discharge

Relieving long waiting times at the point of discharge – crucial to optimise bed use during high demands. Giving patients the choice to collect their medicines from outpatients, or from their local LloydsPharmacy.
